

# SANDRINGHAM GOLF CLUB

## 2 Ball Ambrose

Each team consist of 2 players. The handicap of each player must be shown on the scorecard. One scorecard per team which is to be signed by one player and one marker. The team handicap is calculated by adding both players' handicaps and dividing by 4. The team handicap is deducted from the 18 hole gross score to calculate the team's nett score.

If it is unavoidable to play other than as a 3 Ball the team handicap is calculated by adding the handicaps of the 3 players and dividing by 6. BUT avoid 3 Ball if possible.

Both players hit from the tee and mutually agree the better ball (good idea to appoint a captain in case of disputes). To play the better ball, the other player must PLACE the ball within a handspan. Their next stroke is hit from this position, no matter where their previous stroke finished. The captain makes a similar selection after the subsequent strokes. If the selected ball is in the rough or a penalty area, the other ball must be placed in the rough or penalty area. On the putting green the ball is placed within a handspan of the selected better ball.

A minimum of 5 tee shots per player must be used, including for the 3-ball teams. The scorecard must indicate which holes qualified for each player.

Disqualification will result if scorecard is not completed correctly.
