

SANDRINGHAM GOLF CLUB

PAR INSTRUCTIONS

To calculate your Par score, you need to work out your awarded shots on each hole.

Whatever your handicap, you should be aiming to score a minimum of "0" (equivalent to 36 Stableford points).

A player's score is based on the number of nett strokes made on the hole compared to the "PAR" of each hole.

If Nett Strokes = Par you "halve" or "square" the hole (score "0")

If Nett Strokes is 1 less than Par you score a "-" (minus)

If Nett Strokes is more than Par you score a "+" (plus)

The gross strokes must be shown on the scorecard for holes where you get a "0" or a "+".

A player should pick up their ball once they score a "-".

Final score is calculated by deducting the number of "-" from the number of "+".

EXAMPLES

Player with a handicap of 25 deducts 2 strokes from the gross strokes on holes indexed 1-7 to arrive at the nett strokes.

Player with a handicap of 36 deducts 2 strokes from the gross strokes on every hole to arrive at the nett strokes.

Player with a handicap of 45 deducts 3 strokes from the gross strokes on holes indexed 1-9 and 2 strokes from the gross strokes on holes indexed 10-18 to arrive at the nett strokes.
